CERTIFICATE OF ANALYSIS

WORKING STANDARD

Working standard name: GLIBENCLAMIDE	Working standard Ref No: WS1511044
Date of standardization: 12/11/2015	Working standard Quantity: 13 x 2g
Raw material source: ELIXIR PHARMA	Raw material Batch No: EGAA-15N001
Raw material manufacturing date: 01/2015	Raw material Expiry date: 12/2018
Chemical Reference standard Batch number: 3688	Chemical Reference standard catalogue number: 175
Chemical Reference standard source: BP	Intended use of working standard: Analysis of raw materials and finished products

RESULTS OF ANALYSIS

TESTS	SPECIFICATIONS	RESULTS
Physical appearance	White or almost white, crystalline powder.	A white crystalline powder
Identification IR	Infrared spectrum of the sample is concordant with the spectrum obtained from Glibenclamide reference standard.	Complies
Loss on drying	Not more than 1.0 percent	0.47%
Assay	99.00 per cent to 101.00 per cent (dried substance)	99.80%
Conclusion: The working standard has been qualified for use.
